Hiring Team
ERIC Robotics
Pune, India

Subject: Application for Machine Learning Intern

Dear ERIC Robotics Hiring Team,

I am writing to express my interest in the Machine Learning Intern position at ERIC Robotics in Pune. I have completed my Bachelor of Computer Applications and am interested in applying my programming and project experience to machine learning, computer vision, and robotics.

During my research internship at IIT Dharwad, I worked on a Python-based image transmission system using Raspberry Pi devices across different networks. This work involved building and testing an image-transfer pipeline, configuring network connectivity, and carrying out system validation and debugging. It strengthened my practical understanding of Python, Linux, embedded systems, and edge computing.

I have also worked on AI-oriented and computer-vision projects, which have motivated me to deepen my knowledge of machine learning and intelligent robotic systems. I would welcome the opportunity to learn from your team, contribute to ongoing projects, and develop my skills through hands-on work.

Thank you for considering my application. I would appreciate the opportunity to discuss how my background, project experience, and willingness to learn could contribute to ERIC Robotics.

Sincerely,
Shrinivas Masalavada
